

SCHÖNHEIT GARDENS

**Plant Guarantee**  
NURSERY

The team at Schönheit Gardens takes pride in our quality plants. As a policy, we only sell plants that we would want to buy ourselves. Our Nursery Staff makes every effort to advise you about your selections to ensure your plants are intended for a location where they will grow healthy and strong.

We guarantee trees and shrubs three months from the date of purchase. Our selection of plants varies from year to year and season to season (size, value, availability), so we may not have an exact replacement plant at the given time. If a particular plant is not working in an area, we may suggest trying something different to avoid plant death in the future. Our goal is for you to have a successful, beautiful garden.

We will refund plants ONE time only. This refund will be given as store credit for the purchase amount. *No cash refunds will be given.* In order to activate the guarantee, you must present your receipt and dead plant material, in person, to a nursery staff member.

**Exceptions:** Plants will not be replaced if death was due to drought, animal damage, acts of nature, vandalism, or neglect. Plants not included in the guarantee include: herbaceous perennials, tropicals, annuals, Japanese/Korean Maples, Redbuds, Endless Summer Hydrangeas, Oakleaf Hydrangeas, Buddleias (butterfly bush), perennial Hibiscus (Rose mallow) and plants zone 5 and above.

**Note:** The number one reason plants die within the first year is inappropriate watering. New plantings need supplemental watering, and larger trees and shrubs may need to be watered every day depending on timing of installation, location, size, and other factors.

**Please** take time to read the Watering Guidelines as these will give you the information that will help your new plant(s) survive. If you have questions regarding watering, the health of your plant, or plant care, please contact a nursery staff member.

We hope you enjoy your new plant additions for many years to come!
